

CAPABILITY STATEMENT

ABOUT US:

At Global Royal Digital Technology, our mission is to revolutionize the digital technology workspace by transcending geographical and workforce limitations. We strive to enable seamless collaboration across organizational boundaries, while empowering enterprises with a diverse and innovative workforce. Our goal is to provide a roadmap to cutting-edge digital technology, robust security risk management, and continuous security compliance to safeguard enterprise assets and promote resiliency, compliance, and business continuity. To tackle the significant technical and policy challenges encountered by government, health and human services, biotechnology, and cybersecurity sectors, we curate, organize, and deploy expert teams comprised of multidisciplinary scientific and technology professionals.

PAST PERFORMANCE:

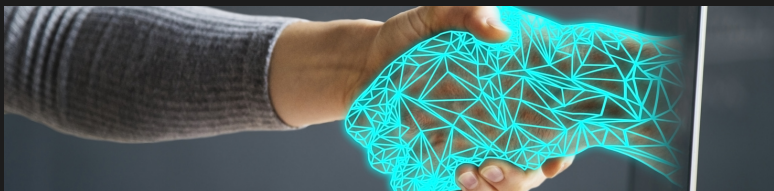

- Telos- Contractor- Cyber security
- Dynamic Technology Systems – Data Base/Developer/Admin
